Protein Structure & Molecular Enzymology

Vol. 1209, 1994

BBA Biochimica et Biophysica Acta

Cumulative Contents

Obituary — Laurens L.M. van Deenen ix

Information for Contributors xi

Regular Papers

Purification and properties of a halophilic catalase-peroxidase from *Haloarcula marismortui*
F. Cendrin, H.M. Jouve, J. Gaillard, P. Thibault and G. Zaccai (France, Canada) 1

Measurement of subnanomolar retinoic acid binding affinities for cellular retinoic acid binding proteins by fluorometric titration
A.W. Norris, L. Cheng, V. Giguère, M. Rosenberger and E. Li (USA, Canada) 10

An equilibrium study of the dependence of secondary and tertiary structure of creatine kinase on subunit association
S.H. Grossman (USA) 19

pH Titration of the histidine residues of cyclophilin and FK506 binding protein in the absence and presence of immunosuppressant ligands
L. Yu and S.W. Fesik (USA) 24

MCD and ^{1}H-NMR spectroscopic studies of *Desulfovibrio africanus* ferredoxin I: revised amino-acid sequence and identification of secondary structure
S.L. Davy, J. Breton, M.J. Osborne, A.J. Thomson, A.P. Thurgood, L.-Y. Lian, Y. Pétillot, C. Hatchikian and G.R. Moore (UK, France) 33

Interactions of L-serine at the active site of serine hydroxymethyltransferases: induction of thermal stability
B. Bhaskar, V. Prakash, H.S. Savithri and N. Appaji Rao (India) 40

Dual role of divalent cations in the bile acid:CoA ligase catalyzed reaction
M. Kelley and D.A. Vessey (USA) 51

Biophysical characterization of mucin components HTM-1 and HTM-2 from tracheobronchial secretions of cystic fibrosis patients
N.V. Padhye, V. Shankar, S. Reyes de la Rocha and G.P. Sachdev (USA) 56

Coupling between external viscosity and the intramolecular dynamics of ribonuclease T_1: a two-phase model for the quenching of protein fluorescence
B. Somogyi, M. Punyiczki, J. Hedstrom, J.A. Norman, F.G. Prendergast and A. Rosenberg (Hungary, USA) 61

Characterization of complex formation between G_{i2} and octyl glucoside solubilized neutrophil *N*-formyl peptide chemoattractant receptor by sedimentation velocity
R.K. Bommakanti, E.A. Dratz, D.W. Siemsen and A.J. Jesaitis (USA) 69

Refined 1.8 Å resolution crystal structure of the porcine ε-trypsin
Q. Huang, Z. Wang, Y. Li, S. Liu and Y. Tang (China) 77

The guanidine-induced conformational changes of the chaperonin *Gro*EL from *Escherichia coli*. Evidence for the existence of an unfolding intermediate state
T. Mizobata and Y. Kawata (Japan) 83

5-Fluoro-2′-deoxycytidine 5′-monophosphate is a mechanism-based inhibitor of thymidylate synthase
L. Liu and D.V. Santi (USA) 89

Site-directed mutagenesis of human ferrochelatase: Identification of histidine-263 as a binding site for metal ions
H. Kohno, M. Okuda, T. Furukawa, R. Tokunaga and S. Taketani (Japan) 95

Isolation of multiple dimeric forms of phosphoribulokinase from an alga and a higher plant
S. Clasper, R.E.L. Chelvarajan, J.S. Easterby and R. Powls (UK) 101

Human cysteine dioxygenase type I: primary structure derived from base sequencing of cDNA
K.P. McCann, M.T. Akbari, A.C. Williams and D.B. Ramsden (UK) 107

Ethanol-induced reduction of the amount of stimulatory GTP-binding regulatory protein, Gs, in wild-type S49 murine lymphoma cells: Effect of cycloheximide and puromycin
J. Nakamura (Japan) 111

The functions of the ninth component of human complement are sustained by disulfide bonds with different susceptibilities to reduction
M. Hatanaka, T. Seya, S. Inai and A. Shimizu (Japan) 117

Evidence of a species-differentiated regulatory domain within the N-terminal region of skeletal muscle AMP deaminase
F. Ronca, M. Ranieri-Raggi, P.E. Brown, A.J.G. Moir and A. Raggi (Italy, UK) 123

Purification, characterization and selective inhibition of human prostaglandin G/H synthase 1 and 2 expressed in the baculovirus system
J. Barnett, J. Chow, D. Ives, M. Chiou, R. Mackenzie, E. Osen, B. Nguyen, S. Tsing, C. Bach, J. Freire, H. Chan, E. Sigal and C. Ramesha (USA) 130

Rapid Report

Compactness of the molten globule in comparison to unfolded states as observed by size-exclusion chromatography
E. Žerovnik, R. Jerala, N. Poklar, L. Kroon-Žitko and V. Turk (Slovenia) 140

Short Sequence-Paper

Demonstration by mass spectrometry that pseudohevein and hevein have ragged C-terminal sequences
U.M.S. Soedjanaatmadja, J. Hofsteenge, C.M. Jeronimus-Stratingh, A.P. Bruins and J.J. Beintema (Indonesia, Switzerland, The Netherlands) 144

Review

Protein fluorescence, dynamics and function: exploration of analogy between electronically excited and biocatalytic transition states
A.P. Demchenko (Ukraine) 149

Regular Papers

Expression, purification, and characterization of the Kunitz-type proteinase inhibitor domain of the amyloid β-protein precursor-like protein-2
W.E. Van Nostrand, A.H. Schmaier, B.R. Neiditch, R.S. Siegel, W.C. Raschke, S.S. Sisodia and S.L. Wagner (USA) 165

Creatine kinase compactness and thiol accessibility during sodium dodecyl sulfate denaturation estimated by resonance energy transfer and 2-nitro-5-thiocyanobenzoic acid cleavage
E. Clottes, F. Couthon, L. Denoroy and C. Vial (France) 171

A ^{1}H-NMR determination of the solution structure of the A-chain of insulin: comparison with the crystal structure and an examination of the role of solvent
B.L. Hawkins, K.J. Cross and D.J. Craik (Australia) 177

Purification and sequencing of a family of wheat lipid transfer protein homologues phosphorylated by plant calcium-dependent protein kinase
G.M. Neumann, R. Condron, I. Thomas and G.M. Polya (Australia) 183

Plasminogen activator inhibitor type-1 interacts exclusively with the proteinase domain of tissue plasminogen activator
P. Björquist, M. Brohlin, J. Ehnebom, M. Ericsson, C. Kristiansen, G. Pohl and J. Deinum (Sweden) 191

Effects of chloride on the kinetics and stereochemistry of chloroperoxidase catalyzed oxidation of sulfides
P. Pasta, G. Carrea, S. Colonna and N. Gaggero (Italy) 203

Thermal inactivation of shrimp deoxyribonuclease with and without sodium dodecyl sulfate
J.-L. Lin, W.-Y. Wang and T.-H. Liao (Taiwan, R.O.C.) 209

Membrane-bound high molecular mass proteinases from human erythrocytes
M.T. Khan, K. Wang, M.E. Auland, E.P.W. Kable and B.D. Roufogalis (Australia) 215

Initial formation of a non-covalent enzyme-reagent complex during the inactivation of clostridial glutamate dehydrogenase by Ellman's reagent: determination of the enzyme's dissociation constant for the binary complex with NAD^+ from protection studies
L.A. Basso and P.C. Engel (UK) 222

Conformational change due to reduction of cytochrome-*c* oxidase in lauryl maltoside: picosecond time-resolved tryptophan fluorescence studies on the native and heat modified enzyme
T.K. Das and S. Mazumdar (India) 227

Product inhibition of reversible enzyme-catalysed reactions
R.G. Duggleby (Australia) 238

Involvement of L-tryptophan aminotransferase in indole-3-acetic acid biosynthesis in *Enterobacter cloacae*
J. Koga, K. Syōno, T. Ichikawa and T. Adachi (Japan) 241

Calcyclin from mouse Ehrlich ascites tumor cells and rabbit lung form non-covalent dimers
U. Wojda and J. Kuźnicki (Poland) 248

Skeletal muscle myosin regulatory light chains conformation affects the papain cleavage of A1 light chains
D. Stępkowski, E.B. Babiychuk, V.M. Danilova and I. Kąkol (Poland, Ukraine) 253

Zinc prevents the structural and functional properties of free radical treated-insulin
P. Faure, J.-L. Lafond, C. Coudray, E. Rossini, S. Halimi, A. Favier and D. Blache (France) 260

Residues important for folding and dimerisation of recombinant *Torpedo californica* acetylcholinesterase
G. Bucht, B. Häggström, Z. Radić, A. Osterman and K. Hjalmarsson (Sweden, USA) 265

The alkaline phosphatase in human plexus choroideus
Y. Nishihara, Y. Hayashi, T. Fujii, T. Adachi, T. Stigbrand and K. Hirano (Japan, Sweden) 274

Divalent metal ions induce conformational change in pure, human wild-type p53 tumor suppressor protein
A.I. Coffer and P.P. Knowles (UK) 279

Short Sequence-Papers

Sequencing of cDNAs encoding α1-microglobulin/bikunin of Mongolian gerbil and Syrian golden hamster in comparison with man and other species
H. Ide, H. Itoh and Y. Nawa (Japan) 286

Molecular cloning and sequencing of a human cDNA encoding ornithine decarboxylase antizyme
D.S. Tewari, Y. Qian, R.D. Thornton, J. Pieringer, R. Taub, E. Mochan and M. Tewari (USA) 293

Erratum 296

Cumulative Contents, Vol. 1209 297
